

ANNUAL DECLARATION OF INTERESTS (ADoI)

(Please note that high quality of scientific expertise is by nature based on prior experience and that therefore having an interest does not necessarily mean having a conflict of interest)

Name: CREBELLI, RICCARDO

Title: Dr

Profession: retired from the Italian National Institute of Health (Istituto Superiore di Sanità)

Current EFSA involvements: Member-CEP Panel 2018-2024 (CEP), Hearing Expert-FAF Panel 2018-2024 (FAF), Member-Cross-cutting WG Genotoxicity (SC), Member-WG Food Contact Materials (CEP), Member-WG on Sweeteners (FAF), Member-WG on the re-evaluation of miscellaneous food additives (FAF)

Nature of Activities	Period	Organisation	Subject matter
I. Financial investments			NO INTEREST
II. Managerial role			NO INTEREST
III. Member of a scientific advisory entity	07/2019 - 04/2020	-Name: Ministero della Salute - Consiglio Superiore di Sanità (CSS), Ministry of Health - Superior Council of Health, Rome, ITALY	member of a permanent working group advising on "natural, thermal and spring mineral waters". Impact on annual earnings: 0%

	05/2017 - 04/2020	-Name: Ministry of Health (Advisory Committee on Pesticides)	expert of the Advisory Section on Pesticides of the Technical Committee on Nutrition and Animal Health of the Ministry of Health (from May 2017). As external expert I provide advice on risk assessment of plant protection products, with no responsibility on risk management issues which are of competence of the Ministry of Health Impact on annual earnings: 0%
	01/2011 - 12/2016	-Name: Ministero della Salute (MinSal), Ministry of Health, Rome, ITALY	Member of the National Advisory Committee on Pesticides (2011-2016); Impact on annual earnings: 0%
	07/2010 - 06/2016	-Name: OECD - Test Guideline Programme	Within the framework of the OECD Test Guideline Programme, an expert group to review the set of OECD Test Guidelines on Genotoxicity has been established on July 2010. R.C has been appointed to participate as national expert. The working group is revising existing and newly proposed test guidelines, and will update the OECD introductory document on genetic toxicology testing and testing strategies. Testing strategies have also been recently reviewed by the EFSA working group on Genotoxicity testing strategies. It is noted that there is no overlap between the EFSA and scheduled OECD activities, because the EFSA opinion on testing strategies has already been finalized and published in 2011. No physical meeting are attended. Written comments forwarded through the National Coordinator (one-three for year) . Impact on annual earnings: 0%
IV. Employment	01/1984 - 04/2020	-Name: Italian National Institute of Health (Istituto Superiore di Sanità)	As director of research my main responsibility was the direction of a research unit at ISS (from 1995 to 2019) and later (2019-2020) of the Department of Environment and Health. When requested I provide advice to the ISS President or to the Ministry of Health on risk assessment of environmental pollutants and their effects on human population. Such activity does not entail risk management issues, which are under the responsibility of the Ministry of Health. I am retired from ISS since April 1st 2020. Impact on annual earnings: >25%
V. Occasional consultancy	08/2018 - now	-Name: Agenzia Italiana del Farmaco (AIFA), Italian Medicines Agency, Rome, ITALY	Appointed on 22.08.2018 as European Expert by the Italian Medicines Agency to provide scientific advice to EMA on pre-clinical studies in the area Special studies - Genetic toxicity. I provided advice to EMA in February 2020 on the health risk related to the presence of nitrosamine residues in drugs Impact on annual earnings: 0%
	01/2002 - 04/2020	-Name: Ministry of Health (Superior Council of Health)	Advising activity on genotoxicity of Food contact materials and guideline values for vanadium, lead, arsenic, chromium, thallium and perfluoro alkyl compounds in drinking water (one to four meetings per year) Impact on annual earnings: 0%
	03/2017 - 11/2018	-Name: Public prosecutor's office at the ordinary tribunal of Vicenza, vicenza, ITALY	advise the Public Prosecutor's office on the health risks related to contamination of groundwater and drinking water by PFAS in the district of Vicenza and surroundings. This tasks is performed in the framework of the institutional activity carried out at the Istituto Superiore di Sanità, with no financial benefit of any nature. Impact on annual earnings: 0%
VI. Research funding	12/2014 - 11/2016	-Name: Regione Veneto, Italy (regional administration)	experimental and advising activity on toxicology of perfluorinated alkyl compounds (PFAS) present as contaminants in drinking water
VII. Intellectual property rights			NO INTEREST
VIII. Other memberships or affiliations			NO INTEREST

IX. Other relevant interest	09/2020 - 10/2021	-Name: Publisher MDPI	Guest-Editor of a Special Issue "Food Additives: Safety Assessment, Consumer Dietary Exposure Estimates and Regulation" of the open access journal Toxics note the lack of conflict was preliminary checked before the acceptance of the task considering that 1) there is no involvement of food industry in this activity, 2) food additives are not in remit of my current involvement as EFSA expert, 3) no remuneration is foreseen, 4) there is no mention to personal current or previous engagements with EFSA in the journal informative material. Impact on annual earnings: 0%
	07/2018 - 12/2019	-Name: World Health Organisation (WHO)	participation to the revision of the Chapter on Genotoxicity of EHC 240 Principles and Methods for the Risk Assessment of Chemicals in Food Impact on annual earnings: 0%
	01/2017 - 06/2018	-Name: ISS, Istituto Superiore di Sanità, Italian National Institute of Health, Italy	in the period indicated I participated to a research project on titanium dioxide nanoparticles, funded by the Italian Ministry of Health. the work was published in Journal of Applied Toxicology (2018): 1-12 (C.Andreoli et al., Critical issues in genotoxicity assessment of TiO2 nanoparticles by human peripheral blood mononuclear cells). Impact on annual earnings: 0%
	10/2017 - 10/2017	-Name: Study University of Parma and Frutarom Italy srl	participation to a meeting on "Natural and innovative ingredients in the production of meat food products" (Parma, 26 October 2017) jointly organized by the University of Parma and the company Frutarom, with a presentation on the role of EFSA in the EC program of revision of food additives. The meeting was a scientific event open to all interested parties (researchers in food technology, industrial stakeholders, general public), and was basically aimed to provide general information on scientific and technical aspects related to meat food production, NOT consultancy on specific aspects. The participation to the meeting was in personal capacity, not as an EFSA spokesman. No fee or other form of payment was received for the talk given. Impact on annual earnings: 0%
X. Interests of close family members			NO INTEREST

I hereby declare that I have read both the Guidance Document on Declarations of Interests and the Procedure for identifying and handling potential conflict of interests and that the above Declaration of Interests is complete.
